2. This Court has subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331 and 1338(a).

3. Venue in this district is proper pursuant to 28 U.S.C. § 1391(b) and 28 U.S.C. § 1400(a) as the defendant is believed to reside in this district.

PARTIES

PLAINTIFF

4. Plaintiff QOTD is a corporation organized under the laws of the United Kingdom with offices in Los Angeles, California.

5. QOTD is an affiliate of Benaroya Pictures, a production company with a notable catalog of major motion pictures.

The Rights of QOTD

6. *Queen of the Desert* is a major motion picture scheduled for release in the United States in early 2016, with an official web site of <https://www.queenofthedesertmovie.com>.

7. *Queen of the Desert* has been registered with the United States Copyright Office by the owner, QOTD, Registration No. PAu 3-766-976, 2015.

8. Under The Copyright Act, QOTD is the proprietor of all copyrights and interests needed to bring suit.

9. The motion picture contains wholly original material that is copyrightable subject matter under the laws of the United States.

10. The motion picture is currently offered for sale in commerce.

11. Defendant had notice of plaintiff's rights through general publication and advertising and more specifically as identified in the content of the motion picture, advertising associated with the motion picture, and all packaging and copies, each of which bore a proper copyright notice.

12. QOTD comes to court seeking relief as the motion picture *Queen of the Desert* is the subject of significant piracy and has been illegally downloaded and distributed countless times worldwide with thousands of confirmed instances of infringing activity traced to Oregon.

THE DEFENDANTS

13. The defendants identified herein as Doe-67.166.95.111, Doe-24.20.28.24, Doe-67.160.138.19, Doe-73.37.64.195, Doe-67.189.40.114, Doe-71.59.237.236, and Doe-76.27.232.24, are currently known only by their Internet Protocol (“IP”) Addresses which were each observed by plaintiff’s investigators, Maverickeye, as distributing the motion picture.

14. Through geolocation, the IP address used by each defendant has subsequently been traced to the State of Oregon.

15. The defendants’ IP addresses have each been observed and confirmed as distributing plaintiff’s motion picture multiple times with the defendants combined observed distributing the motion picture over 800 times.

16. While each defendant has been observed distributing plaintiff’s motion picture multiple times, plaintiff discloses the following specific observed instances of distribution:

| Doe | IP Address Used | Date and Time (UTC) | Motion Picture |
|-------------------|-----------------|---------------------|----------------------------|
| Doe-67.166.95.111 | 67.166.95.111 | 2016-02-03 21:50:49 | Queen of the Desert (2016) |
| Doe-24.20.28.24 | 24.20.28.24 | 2016-02-02 03:30:29 | Queen of the Desert (2016) |
| Doe-67.160.138.19 | 67.160.138.19 | 2016-01-29 14:34:02 | Queen of the Desert (2016) |
| Doe-73.37.64.195 | 73.37.64.195 | 2016-01-27 04:43:02 | Queen of the Desert (2016) |
| Doe-67.189.40.114 | 67.189.40.114 | 2016-02-09 00:05:00 | Queen of the Desert (2016) |
| Doe-71.59.237.236 | 71.59.237.236 | 2016-02-04 03:11:34 | Queen of the Desert (2016) |
| Doe-76.27.232.24 | 76.27.232.24 | 2016-01-31 13:54:17 | Queen of the Desert (2016) |

17. The defendants’ IP addresses have been observed as associated with the peer-to-peer exchange of a large number of copyrighted titles through the BitTorrent network with over 6,000 acts of distribution of content in violation of U.S. copyright law associated with these IP addresses alone, as such the defendants’ conduct is clearly willful and persistent.

18. The volume and titles of the activity associated with each defendant’s IP address indicates that the defendants are likely the primary subscriber of the IP addresses or someone

who resides with the subscriber, as such activity indicates each defendant is an authorized user of the IP address with consistent and permissive access.

19. The volume of the activity associated with each defendant's IP address indicates that anyone actively using or observing activity on the IP address would likely be aware of the conduct of the defendant.

20. The volume and titles of the activity associated with each defendant's IP address indicates that the defendants are not young children.

21. The defendants' IP addresses were at that time of observed infringement managed by Internet Service Provider ("ISP") Comcast, who on information and belief, generally assigns an IP address to a single party for extended periods of time, often for months and provides Wi-Fi systems with notable pre-installed security and passwords.

22. The records maintained by Comcast should be able to identify either each defendant, or the subscriber who contracted with Comcast for service who in turn is likely to have knowledge that will lead to the identity of the defendants.

23. Plaintiff intends to seek initial discovery to subpoena records from Comcast to ascertain the true identity of the defendants.

BACKGROUND

PEER-TO-PEER INTERNET PIRACY

24. Digital piracy, including BitTorrent piracy, costs the entertainment industry over \$80 billion per year.

25. As noted by Senator Levin in Congressional hearings on peer-to-peer Internet piracy, "In the world of copyright law, taking someone's intellectual property is a serious offense, punishable by large fines. In the real world, violations of copyright law over the Internet are so widespread and easy to accomplish that many participants seem to consider it equivalent to

jaywalking – illegal but no big deal. But it is a big deal. Under U.S. law, stealing intellectual property is just that – stealing. It hurts artists, the music industry, the movie industry, and others involved in creative work. And it is unfortunate that the software being used – called ‘file sharing’ as if it were simply enabling friends to share recipes, is helping create a generation of Americans who don’t see the harm.”

26. In 2013, in recognition of the growing problems and challenges with counterfeiting and piracy, The Oregon House of Representatives passed House Memorial 2, which made the following findings:

Whereas the United States and other nations share the challenge of combating intellectual piracy and the counterfeiting of intellectual property such as ... films... and technologies that affect the quality of life; and

Whereas intellectual piracy and counterfeiting have a significant impact on Oregon's economy, and the economies of other states and of nations around the world, which results in job and earnings losses, reduced tax revenues and increased threats to public health and safety; and

...

Whereas protecting and enforcing intellectual property rights is crucial to the future of our innovation-based economy; and

Whereas industries that use intellectual property extensively generate nearly \$7.7 trillion in gross output and account for more than 60 percent of total exports from our nation; and

Whereas industries that use intellectual property extensively ... employ more than 19 million Americans, whose salaries average about 60 percent higher than salaries in industries that do not make extensive use of intellectual property; and

Whereas intellectual property infringement can undermine the nation's economic security; and

Whereas violations of intellectual property rights, ambiguities in the law and a lack of enforcement create uncertainty in the marketplace and in the legal system and undermine consumer trust; and

Whereas intellectual property, including trademarks, [are] essential ...; and

...

Whereas failing to adequately protect and enforce intellectual property rights will increase counterfeiting and illicit trade;

...

27. As such it is clear that giving effect to 17 U.S.C. §§ 101 et seq., and the enforcement of intellectual property rights, and in particular the fight against counterfeiting and piracy are critical issues of importance to the both the United States of America and the State of Oregon.

28. Internet piracy, and in particular BitTorrent piracy, though known as peer-to-peer file sharing, is often a for-profit business as many software clients, torrent sites and networks generate millions of dollars in revenue through sales and advertising.

29. To increase the value of the advertising and sometimes subscription access sold by torrent sites, many parties work to expand the pool of available titles and speed of downloads available by increasing the number of member peers and thus the desirability of their clients and networks. To accomplish this they often reward participants who contribute by giving them faster download speeds, greater access, or other benefits.

30. Defendants' participation in the BitTorrent exchange of plaintiff's motion picture is the type of activity that torrent sites use to promote their business and likely directly furthered the for-profit business of at least one torrent site.

31. Many parties, and possibly defendants have been compensated for their participation in expanding the availability of pirated content to others through BitTorrent networks, including plaintiff's movie, even if only through being granted greater access to other pirated content.

32. The use of BitTorrent does more than cause harm through the simple theft of intellectual property. The BitTorrent distribution of pirated files is a model of business that profits from theft through sales and advertising and provides a system of rewards and compensation to the participants, each of whom contribute to and further the enterprise.

33. Based on activity observed associated with defendants' IP addresses, defendants are prolific proponents of the BitTorrent distribution system advancing the BitTorrent economy of piracy.

JOINDER

34. Plaintiff acknowledges that joinder in this action under FRCP 20(a)(2) is permissive in that plaintiff's claims arise out of the same occurrences or transactions, or series of occurrences or transactions and that there are questions of law and fact common to each of the defendants.

35. All the defendants have collectively acted through the willful and intentional use of BitTorrent with the express purpose of committing intellectual property theft and damaging plaintiff.

36. All of the defendants have collectively acted with notice that their individual and collective conduct facilitated intellectual property theft being committed by others.

37. Each of the defendants willfully joined in the collective conspiracy of using BitTorrent for an illegal purpose and willfully acted to cause harm to plaintiff and to assist others in causing harm to plaintiff through their use of and support of the BitTorrent distribution of motion pictures.

38. The plaintiff's rights to relief, as stated below, ultimately arise out of the same series of related transactions and occurrences.

39. This action also raises substantial questions of law and fact common to all defendants.

40. Permissive joinder in the instant case is to permit a more efficient management of the claims of plaintiff against the several defendants and to reduce the costs to plaintiff and defendants and to reduce the costs and burdens on the Court.

41. Notice is provided, that on being specifically identified and on request from an identified defendant, plaintiff agrees to sever any defendant that claims prejudice in being joined in this matter and proceed against each such defendant individually.

42. Plaintiff intends to provide updates to the court on the status of this action and the status of each defendant on a regular basis.
